DIVERSITY IN STEM:
OPPORTUNITIES AND CHALLENGES FOR UNDERGRADUATES

Please join UCSB undergraduates for a virtual discussion about the changing undergraduate experiences within STEM programs. This panel will benefit students who are interested in graduate programs, post-baccs, and biomedical research. All are invited to this student-focused panel moderated by the UCSB NIH MARC Scholars and participants in the Science for the Common Good course.

📅 1 pm PST | Zoom | April 5, 2022
